

# Lark C1 USB-C Version Compatibility List

## Huawei

Model	System	Built-in App			Third-Party App			Charging
		Recorder	Camera	TikTok	Facebook	Instagram	YouTube	Phone Charging Via USB Type-C
Huawei Nova 5T	Android 10	√	√	√	√	√	√	√
Huawei P Smart	Android 10	√	√	√	√	√	√	√
Huawei P40 Pro	Android 10	√	√	√	√	√	√	√
Huawei P30 Lite	Android 10	√	√	√	√	√	√	√
Huawei Y9	Android 10	√	√	√	√	√	√	√
Huawei P40 Lite	Android 10	√	√	√	√	√	√	√
Huawei P40	Android 10	√	√	√	√	√	√	√
Honor 9X	Android 10	√	√	√	√	√	√	√

### Note:

The √ symbol indicates that the Lark C1 is completely compatible with the mobile device, the O symbol indicates that the Lark C1 is compatible with the mobile device only with the LarkSound app installed, and the X symbol indicates that the Lark C1 is not compatible with the mobile device.

1. You need to set the default recording device of the mobile phone to an external device when the Lark C1 is connected to the OPPO, VIVO, Realme, OnePlus, and iQOO mobile phones.

2. You need to enable the OTG function in the mobile phone settings if the Lark C1 power light is not on when it is connected to the mobile phone.

# iPad

Model	System	Built-in App			Third-Party App			Charging
		Recorder	Camera	TikTok	Facebook	Instagram	YouTube	Phone Charging Via USB Type-C
iPad mini 6	iOS 15.5	√	√	√	X	X	√	√
iPad Pro 4	iOS 14.0.1	√	√	√	X	X	√	√
iPad Air 4	iOS 14.1	√	√	√	X	X	√	√
iPad Pro 3	iOS 14.4	√	√	√	X	X	√	√

\* Some third-party apps do not support sound recording on iPad with an external microphone.

## Note:

The √ symbol indicates that the Lark C1 is completely compatible with the mobile device, the O symbol indicates that the Lark C1 is compatible with the mobile device only with the LarkSound app installed, and the X symbol indicates that the Lark C1 is not compatible with the mobile device.

1. You need to set the default recording device of the mobile phone to an external device when the Lark C1 is connected to the OPPO, VIVO, Realme, OnePlus, and iQOO mobile phones.
2. You need to enable the OTG function in the mobile phone settings if the Lark C1 power light is not on when it is connected to the mobile phone.

# Xiaomi

Model	System	Built-in App			Third-Party App			Charging
		Recorder	Camera	TikTok	Facebook	Instagram	YouTube	Phone Charging Via USB Type-C
Mi 11T	Android 11	√	√	√	√	√	√	√
Poco X3	Android 10	√	√	√	√	√	√	√
Mi 10 Lite	Android 10	√	√	√	√	√	√	√
Mi Note 10 Lite	Android 10	√	√	√	√	√	√	X

\* If the RX is connected to Mi Note 10 Lite, the microphone cannot be turned on and the phone cannot be charged when the RX is connected to a power source via a USB Type-C cable.

## Note:

The √ symbol indicates that the Lark C1 is completely compatible with the mobile device, the O symbol indicates that the Lark C1 is compatible with the mobile device only with the LarkSound app installed, and the X symbol indicates that the Lark C1 is not compatible with the mobile device.

1. You need to set the default recording device of the mobile phone to an external device when the Lark C1 is connected to the OPPO, VIVO, Realme, OnePlus, and iQOO mobile phones.
2. You need to enable the OTG function in the mobile phone settings if the Lark C1 power light is not on when it is connected to the mobile phone.

# Google

Model	System	Built-in App			Third-Party App			Charging
		Recorder	Camera	TikTok	Facebook	Instagram	YouTube	Phone Charging Via USB Type-C
Google Pixel 4a	Android 11	√	√	√	X	X	X	√
Google Pixel 3a	Android 11	√	√	√	X	X	X	√
Google Pixel 3 XL	Android 11	√	√	√	X	X	X	√
Google Pixel 2 XL	Android 10	√	√	√	X	X	X	√
Google Pixel 5	Android 13	√	√	√	X	X	X	√

\* Some third-party apps do not support sound recording on Google phones with an external microphone.

## Note:

The √ symbol indicates that the Lark C1 is completely compatible with the mobile device, the O symbol indicates that the Lark C1 is compatible with the mobile device only with the LarkSound app installed, and the X symbol indicates that the Lark C1 is not compatible with the mobile device.

1. You need to set the default recording device of the mobile phone to an external device when the Lark C1 is connected to the OPPO, VIVO, Realme, OnePlus, and iQOO mobile phones.
2. You need to enable the OTG function in the mobile phone settings if the Lark C1 power light is not on when it is connected to the mobile phone.

# OnePlus

Model	System	Built-in App			Third-Party App			Charging
		Recorder	Camera	TikTok	Facebook	Instagram	YouTube	Phone Charging Via USB Type-C
OnePlus 8	Android 10	√	X	√	X	X	X	√
OnePlus Nord N10	Android 10	√	X	√	X	X	X	√
OnePlus 8T	Android 11	√	X	√	X	X	X	√
OnePlus Nord	Android 10	√	X	√	X	X	X	√

\* The OnePlus built-in camera app and some third-party apps do not support sound recording on OnePlus with an external microphone.

## Note:

The √ symbol indicates that the Lark C1 is completely compatible with the mobile device, the O symbol indicates that the Lark C1 is compatible with the mobile device only with the LarkSound app installed, and the X symbol indicates that the Lark C1 is not compatible with the mobile device.

1. You need to set the default recording device of the mobile phone to an external device when the Lark C1 is connected to the OPPO, VIVO, Realme, OnePlus, and iQOO mobile phones.

2. You need to enable the OTG function in the mobile phone settings if the Lark C1 power light is not on when it is connected to the mobile phone.

# Samsung

Model	System	Built-in App			Third-Party App			Charging
		Recorder	Camera	TikTok	Facebook	Instagram	YouTube	Phone Charging Via USB Type-C
Galaxy M31s	Android 10	√	X	√	X	X	X	√
Galaxy A71	Android 10	√	√	√	√	√	√	√
Galaxy Note 10+	Android 11	√	√	√	√	√	√	√
Galaxy S9+	Android 10	√	√	√	√	√	√	√
Galaxy S10	Android 10	√	√	√	√	√	√	√
Galaxy S10	Android 11	√	√	√	√	√	√	√
Galaxy S9+	Android 10	√	√	√	√	√	√	√
Galaxy M51	Android 10	√	√	√	√	√	√	√
Galaxy M21	Android 10	√	X	√	X	X	X	√
Galaxy A42	Android 10	√	√	√	√	√	√	√
Galaxy Z Fold3	Android 12	√	√	√	√	√	√	√

\* The Galaxy M31s and Galaxy M21 built-in camera apps do not support sound recording with an external microphone.

## Note:

The √ symbol indicates that the Lark C1 is completely compatible with the mobile device, the O symbol indicates that the Lark C1 is compatible with the mobile device only with the LarkSound app installed, and the X symbol indicates that the Lark C1 is not compatible with the mobile device.

1. You need to set the default recording device of the mobile phone to an external device when the Lark C1 is connected to the OPPO, VIVO, Realme, OnePlus, and iQOO mobile phones.

2. You need to enable the OTG function in the mobile phone settings if the Lark C1 power light is not on when it is connected to the mobile phone.

# OPPO

Model	System	Built-in App			Third-Party App			Charging
		Recorder	Camera	TikTok	Facebook	Instagram	YouTube	Phone Charging Via USB Type-C
OPPO A72	Android 10	√	X	√	/	/	/	√
OPPO Reno3 A	Android 10	√	X	√	/	/	/	√
OPPO A73	Android 10	√	X	√	/	/	/	√
OPPO Find X2 Lite	Android 10	√	X	√	/	/	/	√
OPPO Reno4 Z	Android 10	√	X	√	/	/	/	√
OPPO Find X2	Android 10	√	X	√	/	/	/	√

\* 1. To use the Lark C1 to record sounds in some third-party apps, you need to download the LarkSound app and turn off the Speaker Play function.

\* 2. The OPPO built-in camera app does not support sound recording with an external microphone.

## Note:

The √ symbol indicates that the Lark C1 is completely compatible with the mobile device, the O symbol indicates that the Lark C1 is compatible with the mobile device only with the LarkSound app installed, and the X symbol indicates that the Lark C1 is not compatible with the mobile device.

1. You need to set the default recording device of the mobile phone to an external device when the Lark C1 is connected to the OPPO, VIVO, Realme, OnePlus, and iQOO mobile phones.

2. You need to enable the OTG function in the mobile phone settings if the Lark C1 power light is not on when it is connected to the mobile phone.

# Realme

Model	System	Built-in App			Third-Party App			Charging
		Recorder	Camera	TikTok	Facebook	Instagram	YouTube	Phone Charging Via USB Type-C
Realme 6	Android 10	√	X	√	/	/	/	X
Realme 7	Android 10	√	X	√	/	/	/	X
Realme X3 SuperZoom	Android 10	√	X	√	/	/	/	√
Realme 7 Pro	Android 10	X	X	√	/	/	/	√
Realme 6 Pro	Android 10	√	X	√	/	/	/	√

\* 1. To use the Lark C1 to record sounds in some third-party apps, you need to download the LarkSound app and turn off the Speaker Play function.

\* 2. The Realme built-in camera app does not support sound recording with an external microphone.

## Note:

The √ symbol indicates that the Lark C1 is completely compatible with the mobile device, the O symbol indicates that the Lark C1 is compatible with the mobile device only with the LarkSound app installed, and the X symbol indicates that the Lark C1 is not compatible with the mobile device.

1. You need to set the default recording device of the mobile phone to an external device when the Lark C1 is connected to the OPPO, VIVO, Realme, OnePlus, and iQOO mobile phones.

2. You need to enable the OTG function in the mobile phone settings if the Lark C1 power light is not on when it is connected to the mobile phone.

# Redmi

Model	System	Built-in App			Third-Party App			Charging
		Recorder	Camera	TikTok	Facebook	Instagram	YouTube	Phone Charging Via USB Type-C
Redmi Note 9 Pro	Android 10	√	√	√	√	√	√	√
Redmi Note 9T	Android 10	√	√	√	√	√	X	√
Redmi Note 9S	Android 10	√	√	√	√	√	√	√
Redmi 9T	Android 10	√	√	√	√	√	√	√

\* If the RX is connected to Redmi Note 9T, the microphone cannot be turned on and the phone cannot be charged when the RX is connected to a power source via a USB Type-C cable.

## Note:

The √ symbol indicates that the Lark C1 is completely compatible with the mobile device, the O symbol indicates that the Lark C1 is compatible with the mobile device only with the LarkSound app installed, and the X symbol indicates that the Lark C1 is not compatible with the mobile device.

1. You need to set the default recording device of the mobile phone to an external device when the Lark C1 is connected to the OPPO, VIVO, Realme, OnePlus, and iQOO mobile phones.

2. You need to enable the OTG function in the mobile phone settings if the Lark C1 power light is not on when it is connected to the mobile phone.

## Others

Model	System	Built-in App			Third-Party App			Charging
		Recorder	Camera	TikTok	Facebook	Instagram	YouTube	Phone Charging Via USB Type-C
Moto G Power	Android 10	√	X	√	X	X	X	X
TCL 10 Pro	Android 10	√	√	√	X	X	X	√

\* The built-in camera app on the phone and some third-party apps do not support sound recording with an external microphone.

### Note:

The √ symbol indicates that the Lark C1 is completely compatible with the mobile device, the O symbol indicates that the Lark C1 is compatible with the mobile device only with the LarkSound app installed, and the X symbol indicates that the Lark C1 is not compatible with the mobile device.

1. You need to set the default recording device of the mobile phone to an external device when the Lark C1 is connected to the OPPO, VIVO, Realme, OnePlus, and iQOO mobile phones.

2. You need to enable the OTG function in the mobile phone settings if the Lark C1 power light is not on when it is connected to the mobile phone.

Connection to some cameras with a USB-C interface is also supported, such as DJI Action 2 and 3.
